welcome

We are pleased to introduce you to **qlight** and our services - targeted at the budget conscious entertainment sector.

the qlight initiative

The **qlight** initiative has been designed around feedback we've received from our clients, coupled with real world experience. It combines professional grade equipment with flexible rates, formulated to produce the highest quality results for your event at competitive pricing. That's **qlight**.

product range

The product range in our hire inventory represents leading manufacturers within the industry. At **qlight**, we take pride in our service and quality of our equipment. For those unfamiliar with our equipment, we offer advice, support and consultation - with the goal of making your event as easy and efficient as we can.

other services

In addition to hire, our in-house technical consultants can offer a range of service to assist with your event.

Services such as system design, installation and manufacturing can be packaged to provide you with a custom-built turnkey solution in a price that is suited to your project.

Our engineering department can plan and manufacture specialist custom designs & solutions, specifically for your project.

Finally, **qlight's** design consultants can custom design distinctive solutions to take your event to the next level.

At **qlight**, our fully qualified knowledgeable technical support staff take time to listen to the needs of our clients, offering the best cost effective professional solution.

Contact us today to see how we can support your next event!
